

**2005-2006 Fauquier County Farm Product And Services Directory and the Fauquier  
Agriculture HomeGrown Logo**

The Agricultural Development Office would like to offer local Fauquier County agricultural producers this opportunity to register for the **2005-2006 Fauquier County Farm Product And Services Directory**. We would also like to offer the opportunity to register for use of the **Fauquier Agriculture HomeGrown** label. The **Fauquier Agriculture HomeGrown** label is a new program launched by the Fauquier County Agricultural Development Office. This label is a method for consumers, and the like to solicit and promote locally grown produce and locally made products. Stickers with the **Fauquier Agriculture HomeGrown** logo are used to help create a consumer preference for locally grown produce or locally made goods, by expanding buyer tendency through buyer recognition. This helps insure the prosperity and continuation of local farms.

Registration for both programs is FREE. The **2005-2006 Fauquier County Farm Product And Services Directory** will be distributed to the public. This is a prospect for free marketing through a Fauquier County Agricultural Development publication, and the chance to be included in the Fauquier Agriculture HomeGrown label. By including your farm's name, this publication will enhance the consumer name recognition of your farm, and offer local agriculture producers the ability to enhance relationships within the community.

We are excited about these programs and hope you will take advantage of them and find them beneficial. If you would like to be included in either of these programs, please **respond by December 13** by printing out the form then completing, signing, and mailing, or faxing the questionnaire back to:
